The direction of technology

Materials open up your opportunity

Adjustable drivers, while being main-stream, have until now come along with some compromises, especially with forgiveness.

By using weight strategically, designers have been able to extend the size of the hitting zone.

The leading 2018 drivers not only protect ball speed away from the sweet spot, they protect the launch conditions.

That means, despite a slightly off-centre ball strike, you still get the length of ball flight and distance you expected.

Originally, the weight required for adjustable hosels reduced the amount of weight available to the club designer.

That's why the new hosels are designed to be more forgiving.

That's not the case anymore. More than enough weight is available to the designer to allow them to develop a driver packed with forgiveness.

The adjustable driver improvement

Now though, new manufacturing processes, new lighter but stronger materials, have provided the designers of adjustable drivers with enough discretionary weight to give you adjustability and forgiveness.

Srixon Z 785 and Z 585 Drivers

The new Srixon Z 785 and Z 585 both come with real performance improvements.
We think these will make a big difference for many of our golfers.

What motivates you?

What are you most looking forward to, as you arrive?

We're trying to gain a better understanding of what's important to our golfers. Last week we had a simple question relating to social golf vs competitive golf. If you missed it and want to answer,

This is just one question. It might make you think though.

Cleveland Golf RTX4 Wedges

The new Cleveland Golf RTX4 Wedges deliver ball-stopping spin and control, along with designs that offer you options.

If you haven't upgraded your wedge set in a while, the Cleveland Golf RTX4 Wedges and the number of options they offer you greenside should be an inspiration to improve your short game.
