Feel the thrill

The sweet spot matters

One of the best feelings in golf is when you make contact out of the "hitting zone" with your driver.
It's an exquisite moment. There's satisfaction in watching the ball speeding down the fairway.

In an effort to swing hard at the ball, many golfers change their angle of attack and create even more spin.

The saying goes "when it's breezy, swing easy".
When we say "swing easy", we don't want you reducing your shoulder turn and just using the arms. Fully rotate your upper body, but possibly feel a little less aggressive with your arms.

This also helps with consistency

Whether you're going to play in the wind or not, if you want to add consistency to your ball striking, practice a good swing tempo. With your driver, at the range, practice with the "full shoulder turn, swing easy" thought.

Do you lose any distance? Do you actually gain distance? If we can help
