Best of luck to him!

Sad goodbyes and new beginnings!

The club said goodbye to **Shamiela Arends & Isaac's Catering** last week after 16 years of service. Shamiela has moved her business to Royal Cape to be closer to home and family. We will miss her at the Met, and we wish her luck in her future endeavours.

Vanessa McNab has moved into the Halfway House and Bar with "19th at the Met" and is off to a great start! We are excited for the future!

Could you save 5 shots per round?

A simple test to benchmark your putting setup

The jury is out on this one. The evidence shows that, if one is more important than the other, then it's marginal. We think this myth has come about as the industry tries to educate golfers that weight is very important.

And it is.

If the angle of your putter face is just 2° out at impact then, even from just 6 feet you're going to miss.

If you miss most putts in the 6-12 foot range then the chances are you have a face angle challenge. For most, that problem starts at the address position. Benchmark your skill level:

Get a check-up

Improving your ability to square the putter face at impact will take up to 5 shots off your scorecard. There are some simple keys to that improvement.

So come and see us.
