Get your body golf ready

If you're thinking of hitting the gym to improve your golf this winter, then please speak to a trainer and get a program that strengthens your gluteus maximus, your chest, latissimus dorsi, and your core.

The golf swing isn't about hands and arms. It's the large muscles that should control your golf swing.

Game improvement never looked this good

CONFIDENCE TO ATTACK THE FLAG

Standing over a tough approach becomes easier, and more enjoyable, when you have lots of confidence.

Callaway have added game improvement tech to their new Epic Forged Iron that is going to give you that added confidence. And they've packed it into a sleek profile.

A FIRST FOR FORGED

Forged irons give good ball strikers added control over flight shape and distance. Mid- to high-handicappers can now tap into that control, too.

The Epic Forged has a Tungsten weight suspended in urethane microspheres, allowing Callaway to position the CoG precisely for each iron. This increases the MOI across the set, giving you easier launch on all your iron shots.

ATTACK THE FLAG.

When you're out on the range try to hit more than just distance markers and greens. Go for the flag.

Every golfer is unique

But every golfer wants confidence. Let's set you up to take on any approach shot.
