Friends! Outdoors! Fun!

When your kids learn to play the game of golf, they are not just learning to play golf.

They are building relationships.

They are outdoors instead of playing video games.

They are learning a sport which they can share with family members no matter what the age difference.

Give them the gift of a great sport this summer.

Sign them up for our summer camps.

Gripping news

We see many golfers who try to get some extended play with old worn out grips. Sometimes grip wear is hard to detect because it can be so gradual. The fact is, once the grips have worn out, more grip pressure is required to

keep the club from slipping in your hands. This added grip pressure is costing you precious strokes...

Simplify your short game

Practice, check, repeat on the course

Knowing exactly how far you hit each wedge with a short, medium and full swing is vital if you want to become an accurate wedge player. You can also start to practice different shots.

9-3 swing

11-1 swing

Full swing

Bump and runs. Low shot into back pin position. High approach shot into front pin position.
 Flop shot. Low controlled shot into the wind.

Wedge	Swing length	Yardage
60°	9 - 3	23yrd
60°	11 - 1	64yrd
60°	Full	92yrd
55°	9 - 3	32yrd
55°	11 - 1	98yrd
55°	Full	108yrd
50°	9 - 3	40yrd
50°	11 - 1	110yrd
50°	Full	122yrd
PW	9 - 3	43yrd
PW	11 - 1	118yrd
PW	Full	130yrd

Armed with your wedge chart and your favorite distance with your favorite wedge, you'll know where to lay-up if you can't get to the green with your approach. That's better game management. Every golfer, whatever their handicap, should have a wedge chart.

Fill your wedge chart

To gauge a distance for each of your swings for each wedge can be difficult without assistance. So why not book a session with us. Let's complete your wedge chart and at the same time, we can look over your three swings.

Maybe there are other improvements.

Ten shots better

Confidence counts

In our attempts to show you that, if you're a mid to higher handicap golfer, you can take ten shots off your scorecard, we identified four areas where most of you lose shots. One of those areas is in the 15 – 40 yard range.

Yes, most golfers miss the green with their approach shot, and leave themselves what ought to be a very simple short-pitch shot. One they should be able to play with confidence and competence.

Benchmark your skill level

Set yourself up on a flat lie 15-yard short of the green, take ten shots and see how many you can get within 8 feet and how many within 4 feet. Now take the same test off an uphill lie. Then a side-hill lie. Finally, a downhill lie.

How well do you do? Do you understand the technique that makes this a simple shot to play well? A technique that will mean no “fat” or “thin” shots?

The ten-shot assessment

Why not come and benchmark your skill with us? You'll be surprised at the simple pointers that make a big impact instantly. For most, just learning how to use bounce, to take away the requirement for perfect contact, will make a really big difference. Let's identify how many shots we can improve your game by.
