Could you save 5 shots per round?

Fraction of an inch and a matter of degrees

If you want to be a better putter; to become deadly within 12 feet; then become a fanatic about your setup and posture at address.

Remember, if your face angle is just 2° out, from just 6 feet you're already going to miss. Every one of you can invest some effort into setting up with the putter face square to the target line.

A setup with your eyes inside, or outside the golf ball, makes it much more difficult to aim correctly. That might mean you're square to the wrong target line.

Most putters are 35" in length and that leads many golfers to stand too upright forcing their eyes inside the line of the ball.

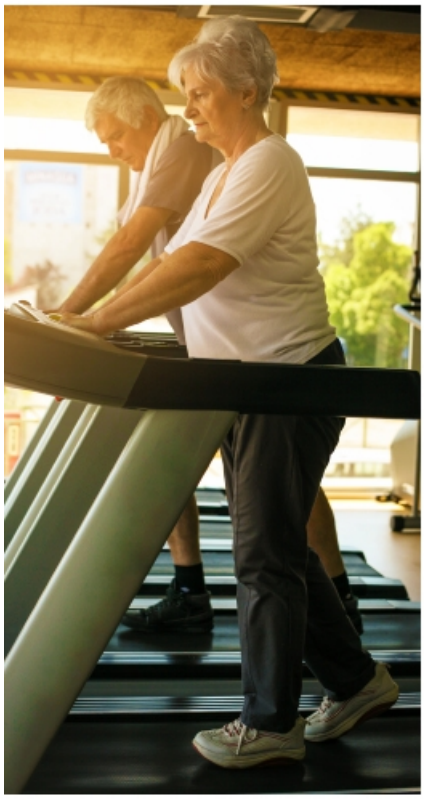
Enjoy the journey

Golf and fitness have a lot of similarities especially when it comes to reaching for goals. For instance most people will describe their fitness goal as something like: “I want to lose weight”. But, for most, “losing weight” isn’t enough motivation to either start, or complete the journey.



You need to think through WHY you want to lose weight. What is the emotional experience you want to enjoy or pain you want to remove by losing weight. If you want to travel the journey to less weight that's what you need to connect to.

It's the same with golf.

Lowering your handicap is rarely enough motivation to be better.
Why would you want to be better?
What joy would you like to experience?
What pain would you like to remove?
