Student of the Week

James Landels gets it right

Biggest Obstacle

Pulling his shots to the left

James' setup with his spine angle leaning forward towards the target made him come into the ball too steep and resulted in him pulling his shots to the left.

Changing his spine angle to lean away from the target allowed him to come into the ball with a shallower angle of attack, which changed his swing path from out-to-in to a much better in-to-out path. He can now hit a nice draw which will make his rounds more enjoyable!

Your scoring zone

Where the magic happens

Between 50 and 60% of your shots are from 100 metres in. The secret to playing better golf and having more fun is here.

But well over 80% of golfers are playing with scoring clubs that don't improve their short game. They're playing blades instead of cavity backs. They've got the wrong lofts. The wrong bounce and grind. They're making scoring more difficult than it should be.

“

Many golfers avoid getting a fitting because they think they aren't good enough. This is a massive myth. In fact, it's the less experienced and skilled golfers who stand to benefit most from a fitting!

Master this range

One of the easiest ways to improve in your scoring zone is to get fitted with the right wedges. We want this to become one of the most enjoyable parts of your game.

Find your truth Before you can let the club do the work

We want you to hit better golf shots with every iron in your bag. Besides the design of the head, the next most important aspect is your lie angle. When your lie angle matches your swing, your irons work better for you.

If you're struggling with hooked iron shots, your lie angle could be too upright.

If your iron shots are going right, there's a good chance your lie angle is too flat.

Many brands try and solve the problems they think each golfer might have at different handicap levels by creating off-the-shelf irons with a specific lie angle. But that might not be right for you.

We're here to help you hit better approach shots

Hitting more accurate approach shots transforms your playing experience.

If you're unsure about your lie angle, when we next see you, let's talk about it, or
