## Cleveland Golf Scoring Clinic

*Improve your golf and get better scores*

**September 19**

Did you know that 2 out of every 3 shots occur from within 125 yards of the hole? The key to scoring is learning the secrets from 125 yards and in. Join us for a Wedge Scoring Clinic Experience on September 19th. You will **receive 90 minutes of expert short game instruction** that will help you in all critical situations - chips, pitches, flops and more. Chances are, you are playing the wrong wedge for your game and we want to change that so you can shoot lower scores. Click here to learn about the brand new **Cleveland RTX ZipCore**, and learn how we tore our flagship RTX wedge down to its core and rebuilt it from the inside out.

Every attendee will also receive a personalized wedge fitting from Cleveland Golf, and a custom fit RTX ZipCore, Cleveland Golf CBX 2, Smart Sole 4, or CBX Full Face wedge.

Do your wedges look like this? If so, you are sacrificing performance in your most important scoring clubs. It is time to replace them to shoot lower scores!

### Details

Rob Noel Golf Academy at Money Hill

Saturday, September 19th

9:00 AM – 10:30 AM

**\$150** per person plus tax

Includes: Wedge Fitting, Short Game Lesson, Cleveland Wedge  
*(plus discount on additional wedges)*

This is truly one of the best investments you can make in your golf game.  
Don't miss your chance to learn how to shoot lower scores!

## Loft 'n' roll

*Not to be forgotten*

We know the right driver loft increases distance off the tee. We know the right wedge loft makes up and downs easier. But what about putter loft? It's not spoken about enough, but the loft of your putter massively affects your distance control and accuracy on the greens.

### **Are you delofting your putter?**

*Most off-the-shelf putters today come with about 3 degrees of loft. That's what we call the "static loft", and it's enough IF you strike the ball square. But if you press forward or pull back in your putting stroke, you're reducing or increasing the "dynamic loft" at impact.*

### **Take on any putt**

To get your ball into a smooth, end-over-end roll after impact, we need to make sure your putter loft is working with your stroke to give you the best dynamic loft. That means getting fitted or having your stroke assessed, or ideally, both.

**Ask us about it >**

**Change someone's life.**  
*Give them the gift of golf.*

This isn't a world of avatars, followers, likes, and emoticons. This is golf, a world of personal interactions, tangible experiences, real connections, and a better life. This is something everyone can benefit from.
