Step out and enjoy. Take a load off

Confinement and social distancing can weigh heavily on your physical and mental health. A few hours out on the course in the fresh air is an opportunity to move and have fun.

"Every recommendation about healthy lifestyles has exercise high up on the list. Playing a round of golf gets you 10,000 steps out in the open air, not to mention loads of fun."

Get out and work on a specific skill

Take nothing but a sleeve of golf balls, one short iron, mid iron, long iron and your putter onto the course. Play 18 holes of approach shots. Use the time between tee box and approach to simply walk and enjoy being outdoors. We're in this together. If you want to get out and have some fun on the course,

Searching for speed

Previously we detailed the aerodynamics and the face technology behind the TaylorMade SIM's ability to generate much faster ball speed.

[Read our full review >](#)

There are other ways we can help you generate more speed without extra effort. Remember 1 extra mph of clubhead speed is 2 extra mph of ball speed that translates to 4 extra yards.

Shaft weight makes a difference to how fast you can swing the club. It also changes feel. It will also give us even more chances to optimize your launch. We can fit shafts from 72g down to 47g with the SIM models.

Change your golf experience

We want to put you on the fairway more often off the tee. And, we want you to be further down that fairway. Match this new technology, with our fitting expertise AND your swing to get your personal Launch DNA, and the game of golf can be more fun on every hole. Let us show you.
