## **We all have a part to play in preserving our environment**

The River Clean-up on Monday and Tuesday was a collaborative effort between Hennops Revival, the Zwartkop Golf Estate HOA and the Club. It was a mammoth task, in which 965 bags of rubbish were removed from only a small stretch of the river alongside the 8th hole.

It would be well worth watching these two short videos in which **Taryn Johnston** and **Taiya Self** from Hennops Revival, explain some important issues we all need to take to heart and put into action in our own homes. We are all part of the solution!

*Taryn Johnston tells us more about Hennops Revival*

*Taryn Johnston and Taiya Self give out the "call to arms" on caring for our environment.*

## Competition Playing Handicap

As mentioned earlier in the week, the new **Competition Playing Handicap** comes into effect on **Monday, 1st March**.

Please make sure that you are up to speed with it. If you didn't receive or read the Handicap Network Africa newsletter, then check it all out here:

## Reason for the change

With the change to the **World Handicap System** there were two changes that affected your Handicap Index.

The first was the move to the best **8 out of the previous 20** scores when calculating your Handicap Index, from the previous best 10 of the last 20. Secondly, the change from a maximum score per hole of 2 over par (unless

you had two strokes on a hole, in which case you could enter a 3 over par) to Net Double Bogey (zero Stableford points).

The 2 over was incorrect because it failed to take into account handicap strokes on a hole and it meant people could pick up despite still having a single Stableford point. **Net Double Bogey** has been in use in the **UK, Europe** and **Australia**, and was agreed to by all the countries participating in the World Handicap System decisions.

The above changes have caused some handicaps to move more than others, so **GolfRSA** has decided to follow the World Handicap System recommendation of using **Competition Allowances** to ensure all players have an equal opportunity of winning.

## Competition Handicap Allowances

We are sure that most of you are aware that many current provincial or regional handicap competitions are played off, say, **80%** or **90%** of **Course Handicaps**.

**The World Handicap Technical Committee** investigated millions of competition scores for different formats of play and came up with a statistically determined recommended adjustment to Course Handicaps, which is designed to make competitions **fair to all participants**. This gives everyone, no matter what their Course Handicap is, an equal chance of winning a club or other competition.

So, for example, in a '**Better Ball**' competition it does not matter if two low handicappers play together or two high handicappers play together, or if a low and high handicapper play together – they will all have a fair chance to win if they play well or combine well.

So, how do we implement this Competition Handicap Allowance to give the players a Competition Playing Handicap for the specific competition?

The free [HNA App](#) has an option at the bottom of the Course Handicap section that says "**Apply Allowance**". From here, simply select the **percentage** that the Club has advised you is applicable to the day's competition.

The screenshot shows a mobile app interface titled "CH Calculator". At the top, there are two tabs: "By Course & Tee" (selected) and "By Slope & CR". Below the tabs is a prompt: "Select who you'd like to calculate a course hcp for". The form is filled out for "Mr BRENDAN BARRATT". It includes a circular profile picture with the initials "BB", a "7.4 Hcp Index", and "RONDEBOSCH GOLF..." as the home club. Below this, there are fields for "Club" (RONDEBOSCH GOLF CLUB), "Course" (RONDEBOSCH GOLF CLUB), "Holes" (18), and "Tee" (Par 72 | CR 72.2 | Slope 138). An "Apply Allowance" section shows "95%". At the bottom, a vertical scale from "No" to "80" is displayed, with "95" highlighted in the middle.

The App will then provide you with a Course Handicap and a Competition Playing Handicap. The Competition Playing Handicap would be used to **calculate your score** for the **club competition**.

The Competition Playing Handicap can also be looked up in the same way on the club's handicap terminal – and many clubs will also be able to print out your Competition Playing Handicap for the competition on your payment receipt. Additionally, Competition Playing Handicap Conversion Tables are available at the club as a quick look-up table.

When you enter your score for handicap purposes, you do it the same way as you have done for the past year, by using your Course Handicap. The Competition Playing Handicap is only used for your competition score.

If you have any doubts about what score to enter on the **HNA Handicap System**, you can just enter your gross score per hole and press **Enter Score** – the system will automatically adjust your score for **Net Double Bogey** using your Course Handicap and calculate your **Score Differential**. This can be done on the App, the terminal or on the website.

## Filling in your scorecard

If you are filling in a scorecard for the competition, you need to write down **both** your **Course Handicap** and your **Competition Playing Handicap** in the Handicap section. However, you will only use your Competition Playing Handicap to calculate your competition score.

In competition formats not covered by the table below, the **Competition Committee** can decide on their own percentage – or decide not to apply one.

## This journey's better when it's shorter

*Every golfer wants a shorter approach shot. Getting into that position starts on the tee. And here's how we're going to help you get there.*

### **Check your swing**

*We'll have a look at your swing and help you make any necessary adjustments to improve it.*

### **Use technology like this**

*New technology is making the game easier. The Rebound Frame on Srixon's ZX Drivers is a perfect example. When working on your long game, it's definitely a club worth considering.*

## **Let's shorten the journey**

We want you to fly further and straighter off the tee. We want you in the scoring zone with a shorter approach, more often.

[Start now >](#)

At the **core**  
of a **better experience**

We want you to get every bit of distance you're capable of off the tee while still enjoying soft feel and spin around the greens. That's why we trust and recommend the new Srixon Z-STAR XV.

It's reformulated core gives aggressive swings the distance they're after with driver and the control they expect with irons and wedges.

*A flying start*  
**How we get you there**

Every golfer is different, but an enjoyable golf experience looks the same for most of us; having fun while hitting better shots and sharing special moments with others. There are several ways for us to help you experience this more often.

### **Game assessment**

*Playing 9 holes together gives us a clear picture of your overall game.*

### **Benchmarking and goal setting**

*We'll establish a baseline for your game that we use to set smarter goals and make faster progress.*

### **Swing check**

*We'll have a look at your swing and help you make any necessary adjustments.*
