PAT Professional and Amateur Event Consideration

The PGA Board of Directors, during their meeting on August 26th, modified the events eligible to be counted toward the PAT requirement by adding PGA National and Section Professional and Amateur Events, along with NCCGA, AJGA, and State High School Championships provided the individual was age 16 or older at the time of participation. This action is consistent with the board's previous actions for collegiate and other professional events and meets the Bylaw standard of demonstrating a creditable game of golf. The updated list and complete policy, which requires all PGA minimum standards for the Playing Ability Test to be met, is found by **clicking here**.
