Hole more putts

Better distance control equals less than 3 putts

During the first three weeks, we have discussed the importance of the correct loft at impact and how crucial it is to fit a putter to match your technique.

The correct launch off the putter face allows you to improve your control of ball speed on the green.

Get that right and you'll roll the ball consistently every time.

'Launch' is the angle the ball comes off the putter face. Too high or low a launch off the putter face will affect your distance control, dramatically. Lack of consistency will affect your feel and confidence, and that just exaggerates the problem.

Let's get you closer from further

Do you often feel you made a great stroke yet the result was disappointing? Launch is a vital factor to get right and can be poor due to your equipment or your technique. Let us help.

Play more golf

Have you played Scramble with friends?

Most golfers, when asked what they look forward to most say: "having some fun with my friends".

So here's a suggestion for you. Play a Texas Scramble – if you do want to compete with each other then play a Scramble Drive.

You all tee off together and then, on all but the Par 3s, choose the best drive and all play your second shot from there. It means you're together on the tee, all together with your second shot (again on all but the Par 3s), and again on the green. It is a really social format.

Hitting golf shots from the fairway

Sometimes it just doesn't work for you off the tee. And while we know that improving your short-game is your quickest route to a lower score, we also know a day hunting for balls in rough and forest, because of wild tee shots, is the quickest way to a less happy experience. If you struggle off the tee, then come and see us. Don't live with a game that has you hunting golf balls
