

## Inject some excitement into your game

Next week is April, and we all know what that means. Yes, it's time for The Masters, and the golf season is off and running. **April 11th to 14th at Augusta** is when one of the greatest shows on earth gets underway.

It's an excuse for us all to get excited. That excitement should extend to your own game. While the TV pundits worry about whose game is in the right shape for the Masters, let's worry about your game and if it is in the right shape to give you some great playing experiences. ## Your fitting survey

### Don't neglect your options

We'd like you to give us 3 minutes of your time to complete a survey that will allow us to provide you with a better and more personal service. With your individual responses, we get a much better idea of how we can help you. This is a win-win survey.

[Give us your answers now >](#)

Too many golfers carry clubs in their bags they very rarely use and then don't have clubs they'd use on at least a third of the holes (if they were in the bag). How many wedges do you carry?

And while we're on the subject of clubs used on every hole; most golfers play with a putter that has a shaft length that was probably never validated as being the right length for them.

Was your putter fitted or was it trial and error?

#### **Fill in your survey**

That's why we'd like you to complete this survey and let us know what's most important to you and your playing experience.

[Complete now >](#)

#### **You want it now**

Are you one of the many with a handicap between 12 and 17 who could easily be single figures if only you had a better short game? Let's see.

## **The Par 3 Advantage**

### **Knowing how to use hybrids**

The hybrid was invented to provide regular golfers with distance and consistency with longer shots. More forgiving and easier to use.

But we've picked up a lot of uncertainty amongst golfers on how to use hybrids. From the fairway, is it played like an iron or a fairway wood? And, is it the same when you tee up the ball?

You'll find a lot of Par 3's that are in the long iron/hybrid distance area. It's deliberate. On at least one or more of the holes the course designer wants to test the longer end of your approach-shot-bag. Make your hybrids your favorite clubs by learning how to use a hybrid from the tee and the fairway. It changes the game.

### **Make Par 3 improvement a priority**

Technique matters. It helps to make your playing experience as enjoyable as possible. Golf becomes more fun. Be proud of your technique. Be as good as you can be.
