Before you get started

As we prepare for the start of the golf season, we should consider our equipment.

When should you replace your wedges?

Keeping your short game sharp goes well beyond technique; it requires the proper equipment. For wedges, sharp grooves are essential to sticking it close. See [how long is too long](#) for your old wedges, by clicking on this link.

If we can help you assess your equipment,

With the golf season finally here

It's time to get your junior golfer signed up for the summer at Glen View Club.

We have a variety of programs this summer that will allow your junior to learn and grow in their knowledge and skill with the game of golf. Each program targets a defined age group and with all programs, the professional staff will have the flexibility to move juniors who might not meet the age requirement, but show the necessary ability to be moved up.

Please take a [look at the programs](#) we are offering this summer.

If you would like to register your junior for any of the above programs, or if you have questions, please email Kyle Bauer at kyle@glenviewclub.com.

We look forward to working with your junior golfer this summer!

The big idea in 2019

It's all about speed

Looking at the marketing communication we receive from the brands about their new golf balls and golf equipment it would seem that 2019 is going to be all about speed.

Softer golf balls will now go even faster as core technology and manufacturing gets smarter and more sophisticated.

Those who might have expected to be losing distance with their age will experience the opposite with new ultra-low club weights .

There's going to be no end to the improvements in face design to allow near maximum ball speed from across a wider area of the face of all clubs.

Take advantage of technology

The last years have seen some tremendous strides in improving playability. Technology is being used to improve the playing experience, especially as it relates to consistency. This is the year when it will be easier to go further with every club. If you want to chat to us about how your game could benefit, then

The best for you

Why make this journey?

We want to help as many of you as possible find new levels of joy and fulfillment from your golf. Experience that sweet moment, when you make perfect contact and the ball flies high and long, and you know why you come back again.

We want more smiles. More times that you follow your shot and think “How cool is that!”. More moments of joy. More causes for celebration.

*If inconsistent ball striking
blights your game*

*let us improve your ability to
make solid, square contact.*

Get a better experience

What would cause you to smile more often on the golf course? What would give you cause for celebration? If “greater consistency” of ball striking will help deliver a smile or celebration,
