

Your fitting survey

The most difficult club

We'd like you to give us 3 minutes of your time to complete a survey that will allow us to provide you with a better and more personal service. With your individual responses, we get a much better idea of how we can help you. This is a win-win survey.

The fairway wood reveals all flaws. Its combination of: shaft that's nearly as long as the driver shaft; a face not nearly as big as a driver face; and usually for use without the advantage of a "tee"; make this a very difficult to use club.

Technique, head design, and fitting can either make this a tremendous club to carry and use; or a club not worth its weight in the bag. Where are you when it comes to your fairway woods?

Make it a winner

The fairway wood can change your result on any hole: a great recovery club and a great club to set up an unexpected opportunity.

Start now with an assessment

Yes you can

Last week we talked about the added motivation you get from a positive goal linked to an emotional feeling or thought. If you didn't read it, you can catch up now.

I know that some of you doubt your ability to have a great, or even good, golf swing. Some of you seem prepared to live with the playing experience you have. Don't. This isn't about having a lower handicap; or winning trophies. It's about being able to play a particular shot with more skill.

That might mean that you're no longer the shortest in your fourball. It might mean that you're able to shoot as low as those you play with, despite being shorter off the tee. It might mean experiencing the joy of hitting greens with mid-irons on a regular basis.

Think about this now

Every one of you can make an improvement to some part of your game. Every one of you can improve a level of performance, somewhere in your game, that would enhance your playing experience in a way that matters to

you. Why not try and write down what it could be?
