

Your fitting survey

Could this be made easier for you?

We want to know how we can help you enjoy a better playing experience this year.
We're not selling equipment or a fitting. We want to supply a better playing experience.
What do you need? If you haven't completed our survey in the last couple of weeks, then

[Give us your answers now >](#)

You're an individual. When it comes to
equipment, you are indeed one in a

thousand. But the right option, the right technology, and a better technique make an approach shot, a moment of joy.

Fill in your survey

That's why we'd like you to complete this survey and let us know what's most important to you and your playing experience.

Have you got what it takes?

This shot is worth an investment in your technique, the best technology, and the perfect fitting. Improve your "return".

Start now with an assessment

Be positive about your game

If I talked about swing fundamentals and goals, most of you would yawn. But the image on the left is the one we most often see. The image on the right is easier to achieve than you might think, and it will produce much better results.

If we can make a small change to the fundamentals of the golf swing most of you are playing with, we'd move from you steering the golf ball to you releasing the clubhead through the golf ball. That would make a significant improvement to your playing experience:

*Certainly extra distance.
More than you might
imagine. A surprise
to everyone
you play with.*

*Definitely straighter tee
shots and approach
shots. More fairways
from the tee. More
greens on approach.*

*More solid, more
consistent ball striking.
More satisfaction at
the end of every round.*

*Forget winning.
Forget trophies.
Hitting better golf
shots makes the whole
world a better, happier
place. Golf should be
the therapy for life!*

Would they matter?

Would playing second shots from further down the fairway; and being able to hit consistent, more accurate approach shots, matter to you? Would the improvement in experience out on the course be worth some time?

Why not find out how much of an improvement could be made?
