It will be greener on our side!

40mls has just fallen and the course is going to green up so brilliantly.
Thanks Richard Bridgeford for the pic!

Turning 80 with a spring in our step

What a wonderful evening we had at Southbroom on Saturday, celebrating the start of Spring and the Southbroom Golf Clubs 80th Birthday. The Legends Dinner had a full dinner, glass of wine, all the favourites. The buffet

Legends Band had a full dance floor, playing all the favourites. The turret style dinner was amazing and the décor was great fun, with different tables interpreting Spring & golf!

The Official opening was 31 May 1939- as a 9-hole golf course, developing into 18 holes in the early 1950's and it is now just the most wonderful golf course.

Short course, long views

The course is short - so often not regarded as a championship golf course. But our par 3s in particular, are as good as any I have played anywhere in the world. This sounds like a big statement, but they are special and I really believe this.

The 4th is short with spectacular views and changes radically with the weather.

The 8th aims more east with great views; and don't be short. Can be a long club even for good players.

The 11th has cross winds to deal with, water right and bunkers left and the beautiful Nigel Matthews bridge to cross.

Then the 14th, a proper links type hole with no water, playing long into the wind and it is best to bump and run downwind to a small green with bunkers both left and right. So good!

Fitting for approach shot magic

Three dimensions for a
BETTER APPROACH

We want you to evolve your thinking about your approach shots. Get more demanding about the results you want. Work with us on improving your performance.

Let's start with what you should demand from the partnership that is your swing and your irons.

DISTANCE:

Adding distance means you're playing a shorter club. That means literally a shorter length club. That makes it easier to square the club face and launch the ball high and with accuracy.

ACCURACY:

Squaring the face to target and squaring the sole to the ground at impact means you'll hit more shots tighter to the target. Technique is important. Fitting is imperative. Yes, fitting is imperative to accuracy.

STOPPING POWER:

Once your approach hits the green you want stopping power. That requires spin and an angle of descent that means the ball will sit. So, you want technology in your iron that launches your ball on a great trajectory.

Now improve your approach

Book an assessment with us now. Let us look at your swing and technique; your irons and how the technology helps you. Let us improve the three dimensions above. Improve these and it increases the number of magical moments on the course.

Fall in love with golf

Fall in love with golf

This is

NOT THE PURPOSE

of introducing your children to the

GREATEST GAME.

We're not trying to create the next great tour superstar. We're trying to help junior golfers fall in love with the game of golf.

If we can do that, they'll be healthier, happier, and have a game and friends for a lifetime.

Whether they've played the game before, play the game now, or have never played the game, we'll promise you that we'll take care of them, and set them on the pathway to a lifelong love affair with the game.

Sign your children up for one of our fun junior golf programmes.
