## Club News

Thanks to our early morning avid photographer **Richard Bridgeford** for this lovely pic! Richard is also helping supervise all the road repairs that are happening around Southbroom at the moment. Progress reports and pupdates are posted often on the [Southbroom News Updates Facebook page](#). Thanks Richard and the Ratepayers Team!

-----

Gavin is away captaining the KZN Team at the SA Inter Provincial in Mbombela. Hot conditions up north! We wish them well.

## Member News

*Rene Matthew wins the Cora Hicks  
Trophy*

*Jeanette Peyios*

Congrats to **Rene Matthew** on winning the Cora Hicks Medal (Winter) Trophy! and to **Jeanette Peyios** who shot a nett 74 in the Lady Seniors Tournament at Royal Durban on Monday 16 September & was counted out for 1st place.

It's been great seeing all the South African groups touring the South Coast this month! Lots of competitive formats and nail-biting golf being enjoyed. Thanks to **Kevin Ponton** for bringing The Jameson Raid to play at Southbroom and a resounding well done to the **Mavericks** team on winning the coveted trophy at last from the Great Whites!

**What's hot in the Shop?**

I have some great **Titleist specials** in the Pro Shop:

- AP1 irons plus a Vokey wedge and a bag with a lesson. *Only R14 999.00, save R5 100.00*
- AP3 irons plus a wedge and a bag with a lesson. *Only R16 999.00, save R7 100.00*

Wonderful equipment and great deals!

*Men- Combined Stab Alliance*

**1st-** Bob O'Callaghan, Alex Crawford, Ken Crawford & John Lison 85pts  
**2nd-** Brian Joliffe, Norman Jeffery, Werner Duggan & Paul Lawson 81 pts

## Fitting for approach shot magic

Better accuracy,  
**MORE MAGIC**

Fitting you for better approach shots is more than just finding you the perfect match of lie angle, shaft length, and shaft flex. It is also about

perfect match of lie angle, shaft length, and shaft flex. It is also about finding technology that reduces the impact of poor ball strikes.

Fitting gives you the best chance of returning the iron face back to the ball, square to the target line and with the sole square to the face. But even with the perfect fitting none of us achieve this every time. So how does technology help?

#### **MORE CONSISTENT DISTANCE**

*If you make contact wide of the sweet spot, new technologies allow the face to flex as fast in those areas. That means consistent ball speeds and consistent distance. This is a critical part of approach shot accuracy.*

#### **CONSISTENT LAUNCH**

*Distance isn't just a factor of ball speed. Launch angle and spin need to be protected. This is very important in the area where many less skilled players make contact: below the sweet spot.*

#### **HIGHER MOI**

*Higher MOI means more forgiveness on off-center strikes.*

*If the club can be engineered to twist less when you strike the face wide of the sweet spot then the face will remain squarer and you'll be more accurate.*

## Now improve your approach

Book an assessment with us now. Let us look at your swing and technique; your irons and how the technology helps you. Let us improve the three dimensions of distance, accuracy, and stopping power. Improve these and it increases the number of magical moments on the course.

# Fall in love with golf

**CHILDREN LEARN**

# ***AS THEY PLAY***

That's why play is a  
serious business.

We take that principal to heart. That's why along with skills development we want our juniors playing. Not just traditional golf, but all sorts of games that will not only develop a range of skills, but will help them fall in love with the game for a lifetime.

Sign your children up for one of our fun junior golf programmes. We'll set them on the pathway to a lifelong love affair with the game.
