This week's Hero...

Cathie Markus hadn't played golf in around 12 years until Elsabe got in touch with her via email during August, and encouraged her to come down for a free assessment.

Since then she's undergone an assessment and had a few private lessons with Elsabe.

Well done to Cathie for her determination to get back into golf and to Elsabe on igniting the fire!

"I'm really enjoying being involved with golf again and determined to get better. Thanks so much for your initiative and help getting me enthused again!"

Cathie Markus

Why don't you get **Elsabe** to help you reach your goals – give her a call on **082-922-8408** / elsabe@zwartkopcc.co.za to discuss what you would like to achieve.

You've come this far, now
get closer

You don't have to trade feel
for forgiveness. The new
CLEVELAND CBX 2 WEDGE

Feel and forgiveness come together

Most cavity back wedges offer added forgiveness by sacrificing feel. Not the CBX 2. It helps you play tricky wedge shots more efficiently and more smoothly.

Got spin?

At the end of a round, take your wedges to the practice green and check your shot dispersion.

Getting closer now feels better

More weight has been moved to the toe, middling the center of gravity while a Gelback TPU insert reduces vibration. The result? Softer feel at impact.

It's chip-off time

If you want to have more fun around the greens, improving your wedge play is key. Test your chipping skills with us.

Fix par 3 mistakes

Teeing your ball up on par 3s makes clean impact a bit easier, but go too high and you lose ball speed and land short of the green.

HIGH face impact

By teeing up too high you increase the chances of striking the ball high up on the club face and losing lots of ball speed.

So even if your club selection is spot on, you would still fall short of the green.

“If you’re taking a short iron on a par 3, tee your ball up lower, think level with the blades of grass. With a long iron, you’ll want to go fractionally higher, as though the ball is lying atop a fluffy fairway.”

Do you know your numbers?

Next time you’re on the range take ten shots with the same club at the same target and note your average distance and dispersion.

Use the TEEING AREA WISELY

Before you tee up at all, think about positioning yourself at a spot on the tee box that gives you the best angle into the green based on your natural shot pattern as well as the conditions.

Better course management

Swing improvement takes time, but good strategy brings immediate results. We'll help you make better decisions on the golf course that will put you in a better position.
