

## Santa says

### Handicaps may change

**"The Game of a lifetime" is focusing on a new handicap system.**

The current method of determining your maximum score for the hole is a maximum of 2 over par, unless you have two Course Handicap strokes on a hole, in which case you must enter a 3 over par.

From 1st October 2019, the maximum score on any hole for your Handicap Score will be a Net Two Over Par (or Net Double Bogey), which is equal to Zero Stableford points.

(Note: a net score on a hole is your Gross Score less any Course Handicap Strokes you have on that hole, while a Bogey is a 1-over-par score.)

#### **Example:**

- 1. If a golfer has a Course Handicap of 18, they get 1 handicap stroke per hole, so they must enter a maximum score of 3 over par on any hole where they blow out.*
- 2. If a golfer has a handicap of 9, then on stroke holes 1 to 9 they must enter a maximum score of 3 over par on those holes and, on stroke holes 10 to 18, a maximum of 2 over par.*
- 3. The following table gives a simple overview of the maximum score allowed for Handicap score entry purposes, based on the number of strokes the player receives on a hole.*

Course Handicap Strokes on a Hole	Maximum Score on a Hole
-1	1 over par
0	2 over par
1	3 over par
2	4 over par
3	5 over par

You are in any doubt about maximum scores, please ask your club to assist you. **Alternatively, you can enter your actual gross score on each hole on your HNA Phone App, the club terminal or at [www.handicaps.co.za](http://www.handicaps.co.za). The system will automatically adjust your score to your maximum allowed on a hole according to your Course Handicap when you press “Enter Score”.**

The effect of this change to the maximum score allowed on a hole will result in Handicap Indexes, on average, going up. However, the simultaneous change of the Handicap Calculation to the average of the best 8 of the last 20 scores on the 1st of October (as covered in this previous newsletter), should ensure that the overall effect on your handicap over time will be minimal.

This change should also have a negligible effect on the speed of play because currently, most golfers continue to play until they have no Stableford points.

*If you stroke on a par-4 and cannot score a point, write down 7; if you double-stroke, write down 8...before you conclude that your handicap will go out, remember, they will now be counting the best 8 of your last 20 rounds.*

## Knowing a Birdie from a Eagle

*A message from Yvonne*

*Dear Jeff,*

*Our grateful thanks once again for allowing the St Francis Bay Bird Club to visit one of our most popular birding spots in the area. You have no idea how much they look forward to visiting The Links.*

*Not only are the birds plentiful and of a wide variety, but it is also so pleasant to walk through beautifully manicured surroundings and to enjoy the tranquillity and ambience of the whole place. So much care has been taken in planning and constructing the many beautiful paths. The odd wooden bridge provided for people to cross depressions was also much appreciated.*

*We were impressed with the new security system that you organised for the birders. No longer was there a queue at the gate as our people were able to come through at their leisure to meet in the parking area. Being given a one-time pin also made access through the booms quick and efficient so no birding time was wasted.*

*The Chairman of BirdLife Eastern Cape, Corne Erasmus, attended the*

outing with us and was most impressed with the whole place. The birding was good, as usual, and finding a Long-crested Eagle made the day for several folks who had not seen this bird before. Photographers were hard at work clicking away and jostling to find the best angle.

Thank you so much.

# Fitting for approach shot magic

---

## Delivering a **BETTER APPROACH**

When we fit you for new irons, we can add "distance" which means a shorter club. And using a club with a shorter shaft on approach shots leads to more accuracy.

Many club makers have identified 37 as an important point in shaft length.

Above that length and most golfer's consistency of contact starts to deteriorate rapidly. So allowing you to hit a 37" #7 iron rather than a 'longer' #6 iron is a big deal.

---

### THE CLUBFACE – METALWOOD OR IRON –

*has been part of a materials and design revolution. New materials allow them to be thinner and faster. New internal design is supporting the next generation of irons to allow even more speed across more of the face.*

### Now improve your approach

Book an assessment with us now. Let us look at your swing and technique; your irons and how the technology helps you. Let us improve the number of magical moments you have on the course.

# Fall in love with golf

**MASTERING**  
a skill is great for  
**SELF-CONFIDENCE.**

The boost, thrill, and growth we see in a child when they start to master a particular golf skill gives us tremendous fulfillment. As we start to see them fall in love with the game and find new connections with others on a similar journey, we know we're doing our job.

If we can do that, they'll be healthier, happier, and have a game and friends for a lifetime.

Sign your children up for one of our fun junior golf programmes. We'll set them on the pathway to a lifelong love affair with the game.
