Swing Training News / Golf Performance Center

We have continued to make improvements in the indoor training area,

new lighting, and TV screens in this area to help you see where you need to improve. We have upgraded this area with new flooring and wall areas to make the echo go away. This will allow us throughout the year to continue growing golf here at Crown Colony. The more people in the region who realize what Crown Colony has to offer, the more members and guests we will have here.

Some of the things we have to offer are:

1: TrackMan for short game, full swings and club fitting.

2: SuperSpeed training system for increasing clubhead speed.

3: A slow-motion video system which will help you improve mechanics.

4: Coming soon will be our **indoor golf simulator**, which is the next step to consistency. When you can't play outdoors you will be able to play indoors.

Make this your best golf year ever!

The most important programs are the ones we are continuing to promote to get people you may know **involved in playing golf**. You may have a group of people at your job that we could build a weekly program that not only gets them playing golf, but creates unity in your workforce. Or you may just have some family/friends that you want to get involved in this great game.

Get Golf Ready Program is a great way to do this. This is a five lesson program for just **\$99**. In five lessons we get students on the golf course enjoying this great game that we all love.

A simple test to benchmark your putting setup

The jury is out on this one. The evidence shows that, if one is more important than the other, then it's marginal. We think this myth has come about as the industry tries to educate golfers that weight is very important.

And it is.

If the angle of your putter face is just 2° out at impact then, even from just 6 feet you're going to miss.

If you miss most putts in the 6 – 12 foot range then the chances are you have a face angle challenge. For most, that problem starts at the address position. Benchmark your skill level:

Get a check-up

Improving your ability to square the putter face at impact will take up to 5 shots off your scorecard. There are some simple keys to that improvement.

So come and see us.

Golf is the greatest game on the planet. Great playing experiences. Great social experiences. Amazing friendships. The healthy outdoors. Add a "journey" and the game becomes even better.

We want you to get more out of your golf, to play better golf. We all know better golf is more fun. But the journey that takes you to a better game should also be fun.

Fun starts right at the beginning of your journey.

Nine holes with two friends and one of our Professionals, playing a fun format, gives your Professional the chance to offer some thoughts on what that journey might look like.

Start a journey

Take the first step on your own journey. Speak to us about our Play Nine Together or Personal Assessment and we'll show you a pathway to better.
