THIS WAS A VICTORY
for golfers in South Africa

SRIXON

Shane Lowry would describe himself as having been on a 'journey to better'.

So has his sponsor – Srixon – been on a journey. Golfers in South Africa have propelled them on that journey.

We were the first market outside of the far east to embrace the Srixon golf balls.

The AD333 and Soft Feel have dominated our golf courses. Other markets have followed.

Some sensational numbers from
the Srixon Soft Feel

DRIVER **DISTANCE***

219.5 YDS

219.1 YDS

218.8 YDS

PITCH SHOT **SPIN***

Lowry won with the **Srixon Z-Star XV**.

A very high-quality (materials and manufacture) tour golf ball that suits those with more aggressive swing speeds and those who want a slightly lower, more penetrating trajectory.

Let us know what your favourite Srixon golf ball is and stand the chance to
win a dozen Srixon golf balls.

But, it all started with golfers in South Africa
putting Srixon on a global map.

And now Srixon equipment is being played by more and more of our
golfers. And while the **Z785 Irons** are best for the better players, the **Z585
Irons** are a great step forward in combining 'distance and feel'.

DISTANCE &
FEEL OR WORKABILITY
& **FEEL**

*Now everyone of our golfers can play FORGED Irons
that look perfect, sound perfect, and feel perfect.*

We applaud you Shane Lowry. We
even smile at the celebration of your
countrymen (knowing that you'll
surely celebrate with us when we win
the Rugby World Cup).

But don't forget to come and visit the
country that helped to build the
brand that made you a Major
Champion.

South Africans
can spot a winner.

Centre of Gravity (CoG) matters

It's why an assessment and fitting matters

If two drivers with exactly the same loft and shaft can have a difference of 20 plus metres in how far you hit the ball off the tee, then there's one irrefutable conclusion.

What you should be buying is metres, NOT a driver. Yes, every time you're buying a driver, we should be helping you to find the configuration that maximises your ball speed and then matches that to an angle of launch and spin rate on the ball to get you the biggest distance improvement without you losing control.

Matching swing speed, ball speed, launch angle, and spin rate on tee shots, will make up to 40 metres of difference for some golfers. How much difference would it make to you?

A better life for them

The family connected

We are living in the middle of the greatest and most exciting revolution the world has ever seen. The digital and AI revolution is impacting on society and the way human beings are connected. But there has to be a balance. Your children need to have a way of staying connected with their family in all sorts of real-world ways.

We're biased, but we don't think, besides the family meal, there is a better family experience than golf. Play a Family Alliance – don't compete. Share real joy. Be connected together. Outdoors. Away from social media, computer games. Open up conversation. Share accomplishments.

Let us add balance

Have your child enroll into one of our group sessions to learn to play golf, and we'll have them outdoors, interacting, learning new skills, and having a whole stack of fun they can take out onto the golf course. They won't stop playing computer games, but for a couple of hours each time we'll have them off the phone, out from in front of the screen, engaging in fun activity.
