GIVE THE #1 GIFT IN GOLF.®

Last but not least, we're thankful for you

Without you, there would be no "us." And we are mindful of that in everything we do. Please enjoy your holiday and we'll see you on Friday!

Happy Thanksgiving!

We hope your day is filled with good food, good friends, and
a loving family.

The gifts we offer you

Your driver is your most powerful club, yet many amateurs are happy just hitting the fairway. When it's set up properly FOR YOU, it gives you the confidence to get as far down the fairway as possible. That's exciting!

SHAFT WEIGHT MATTERS

While shaft flex is talked about often, shaft weight arguably has a bigger impact on your ability to keep your swing on plane. And a swing that is consistently on plane is going to hit nearer the sweet spot more often.

Some golfers may find a heavier shaft easier to keep on plane and swing faster than a lighter shaft, and vice versa, it all depends on your swing.

NOT SO SIMPLE

Finding the right fit is not simply a case of faster swings needing stiff shafts and slower swings needing flexible shafts.

What matters most to you?

Let us give you the right shaft weight in accuracy. But Answer one exciting golf ball speed, distance, and one for you.
