# Could you save 5 shots per round?

## Let's get that putter working for you

If you struggle to make enough 6, 8, 10 and 12-foot putts on a flat lie, there's a real possibility that your putter is getting in the way of your fun. If you're struggling, then set up as shown below and try 10x10 foot putts (on a flat surface).

If you're feeling uncomfortable in this setup, or you're still struggling to sink enough straight-forward, flat putts, then try a putter with a shorter shaft. What happens then? You might be very surprised.

*Is 35" too long for you? The average shaft length on a putter is 35". That's too long for the majority of golfers. It's longer than the average putter length on the PGA Tour. Can you get into a posture that allows you to setup correctly and deliver the putter face square at impact with 35"?*

## Get a check-up

Improving your ability to square the putter face at impact will take up to 5 shots off your scorecard. There are some simple keys to that improvement.

Set up and putter are part of that equation. So come and see us.

## The Srixon Z 585: Distance and feel

A compact look. A great sound. A soft, buttery feel. But the Srixon Z 585 is an iron we'd recommend for golfers looking for improved consistency and distance.

**Enjoy the journey**

**IT DOESN'T  
MATTER  
HOW OLD  
YOU ARE**

**AND BOY  
OR GIRL,  
WOMAN, OR  
MAN, IT'S  
THE SAME**

**BETTER IS GREAT**

Better is more enjoyment. Better is more excitement. Better is more rewarding. Better is a look of surprise on your playing partner's face. Better is a challenge faced and an accomplishment made.

## Start a journey

Golf is even more fun when it's a journey somewhere. It's more than playing. It's about growing and improving and mastering a new skill. Speak to us about our 'Play Nine Together' or 'Personal Assessment' and we'll show you a pathway to better.
