On the tee with Trevor

We have all heard the saying "It's the same for everyone"

Brooks Koepka who had this to say before the US Open on players complaining about USGA course setups: "...everybody has got to play the same golf course. So it really doesn't make a difference... if you put it in the fairway and you hit every green, there's really no problem, is there?...So obviously they're not doing what they're supposed to do. So they're not playing good enough. If they put it in the fairway, you shouldn't have to complain about the rough. You hit the greens and you hit it close, you shouldn't have to complain about the greens... It's just something we've all got to deal with. If you play good enough, you shouldn't have a problem."

Exciting new developments!

Thanks to **Raubex** we are able to rebuild the bridge!

The rain can no longer stop us from playing our beloved sport.

Winter is coming...

When winter comes whirling in, we usually take cover under heavy jackets, woolly jerseys and duvets. The biggest challenge each morning is put one toe out of bed onto the freezing tile floor!

But winter can be fun, and warm, and snug. You just need the right people and the right setting!

Before winter properly sets in, make way for our Winter Special! This includes a bed & breakfast and a complimentary glass of red wine or gluhwein. Relax after dinner with a hot cup of coffee in the one hand and dessert in the other.

To book your winter retreat, call us on **051 871 4200** or info@blackmountainhotel.co.za.

Could you save 5 shots per round?

Fraction of an inch and a matter of degrees

If you want to be a better putter; to become deadly within 12 feet; then become a fanatic about your setup and posture at address.

Remember, if your face angle is just 2° out, from just 6 feet you're already going to miss. Every one of you can invest some effort into setting up with the putter face square to the target line.

A setup with your eyes inside, or outside the golf ball, makes it much more difficult to aim correctly. That might mean you're square to the wrong target line.

Most putters are 35" in length and that leads many golfers to stand too upright forcing their eyes inside the line of the ball.

Get a check-up

Improving your ability to square the putter face at impact will likely take up to 5 shots off your scorecard. There are some simple keys to that improvement. Setup and putter are part of that equation. So come and see us.

Enjoy the journey

Golf and fitness have a lot of similarities especially when it comes to reaching for goals. For instance most people will describe their fitness goal as something like: "I want to lose weight". But, for most, "losing weight" isn't enough motivation to either start, or complete the journey.

You need to think through WHY you want to lose weight. What is the emotional experience you want to enjoy or pain you want to remove by losing weight. If you want to travel the journey to less weight that's what you need to connect to.

It's the same with golf.

Lowering your handicap is rarely enough motivation to be better.

Why would you want to be better?
What joy would you like to experience?
What pain would you like to remove?
