## Important notice

Dear Member and Fellow Golfer

We are doing a cultural treatment for our greens from **12h00 on Sunday the 8th, until Tuesday the 10th of September**. The course will therefore be closed on Sunday afternoon at 12h00, and will re-open on Tuesday at 13h00, with a 1 tee start. The kitchen will close on Sunday at 14h30, and the Bar at 17h00. This process is also called hollowtining and is crucial to the well-being of the golf course.

For those who do not know, here is a brief explanation as to why and how this treatment is done,

### How and why to hollowtine

Hollowtining is the cultural practice of sinking a hollow steel tine into the grass surface and removing a plug of grass and soil, generally between 8mm and 16mm in diameter depending on the condition and the compaction on the greens. This will then be deposited temporarily on the surface. It is then removed and topdressing is spread and worked in to cover the holes and allow the grass to grow back. The process will take about 2 days to finish all 18 holes. The aim is to get 100mm down into the surface of the green to allow aeration and water to get to the roots of the grass.

It also reduces any compaction the lawn has sustained and compaction is caused by the continuous traffic that the course endures during the year

from golfers. The greens will be covered with sand and will take approximately ten days to recover completely. This process is a vital part of

approximately ten days to recover completely. This process is a vital part of keeping the golf course in pristine condition.

With the above in mind we need to bring to your attention that the golf course will be closed as mentioned above. The Pro Shop will be closed on Sunday at 13h00, and will open on Monday from 08h00 until 17h00. The Clubhouse and the Bar will open on Monday from 14h00.

Kind regards,

**Trevor G. Kitching**  
General Manager

# Fitting for approach shot magic

Three dimensions for a  
***BETTER APPROACH***

We want you to evolve your thinking about your approach shots. Get more demanding about the results you want. Work with us on improving your performance.

Let's start with what you should demand from the partnership that is your swing and your irons.

#### **DISTANCE:**

*Adding distance means you're playing a shorter club. That means literally a shorter length club. That makes it easier to square the club face and launch the ball high and with accuracy.*

#### **ACCURACY:**

*Squaring the face to target and squaring the sole to the ground at impact means you'll hit more shots tighter to the target. Technique is important. Fitting is imperative. Yes, fitting is imperative to accuracy.*

#### **STOPPING POWER:**

*Once your approach hits the green you want stopping power. That requires spin and an angle of*

descent that means the ball will sit.  
So, you want technology in your iron  
that launches your ball on a great  
trajectory.

# Fall in love with golf

Now improve your approach

This is

**NOT THE PURPOSE**

of introducing your children to the

**GREATEST GAME.**

We're not trying to create the next great tour superstar. We're trying to help junior golfers fall in love with the game of golf.

If we can do that, they'll be healthier, happier, and have a game and friends for a lifetime.

Whether they've played the game before, play the game now, or have never played the game, we'll promise you that we'll take care of them, and set them on the pathway to a lifelong love affair with the game.

Sign your children up for one of our fun junior golf programmes.
