## Holiday hours

This is such a wonderful time of the year and it is so amazing to get to spend

it with family.

With that in mind, the **Golf Course, Driving Range, Golf Shop and Cart Barn** will be **closed on Thanksgiving Day** so our employees can spend the day with their families. All of the areas will be back open on the Friday following Thanksgiving with normal business hours of 8:00 am to 5:00 pm. If you will need your clubs from storage before that time on Friday, please make arrangements to pick them up on **Wednesday, November 27th**. We will be here until **5:00 pm** that day.

For those of you interested in playing on Thanksgiving, the Golf Course will be available to play for walkers only with similar rules to a Monday. This means the first tee will be on a first come, first serve basis.

This year the **Golf Course, Driving Range, Golf Shop and Cart Barn** will also be **closed** on **December 23rd through to December 25th** and **December 30th through January 8th**.

## Guest passes

This is a reminder to all members that have purchased guest passes throughout the 2019 season, that the guest passes must be used by the end of this year (December 31st). Please plan to use these passes while we still have great weather so you take advantage of the great deal you received.

If you have any questions, you can [contact me](#).

## Golf Shop Credit

For all members that have earned Golf Shop Credit throughout the 2019 season, please remember that all credit must be used by the end of the year as well. We still have a good amount of merchandise available and we still have the opportunity to fit you for the latest and greatest clubs! So either stop in soon and do some shopping or call and set up an appointment for a

fitting to make sure you use all of what you earned!

# Fitting for approach shot magic

## Delivering a **BETTER APPROACH**

When we fit you for new irons, we can add "distance" which means a shorter club. And using a club with a shorter shaft on approach shots leads to more accuracy.

Many club makers have identified 37 as an important point in shaft length.

Above that length and most golfers' consistency of contact starts to deteriorate rapidly. So allowing you to hit a 37" #7 iron rather than a 'longer' #6 iron is a big deal.

### THE CLUBFACE – METALWOOD OR IRON –

*has been part of a materials and design revolution. New materials allow them to be thinner and faster. New internal design is supporting the next generation of irons to allow even more speed across more of the face.*

## Now improve your approach

Book an assessment with us now. Let us look at your swing and technique; your irons and how the technology helps you. Let us improve the number of magical moments you have on the course.

# Enjoy the experience

Does better golf  
**MATTER?** 🤪

Last we asked you to reflect on what gave you the most joy and fulfillment over the last golf season. Was it the social and community experiences, or your victories and bragging moments, or you playing performance and improvements made?

It's a fact that MOST golfers are NOT in the game for victories and trophies. They're nice, but they're not the reason "why" for most golfers.

And very few of us make a living out of the game or our performance.

# Q&A

HOW MANY OF YOU SEE  
YOUR GAME THROUGH 2019  
AS PART OF A 'JOURNEY'?

How many of you settled for your handicap vs. how many looked at 2019 as an opportunity to both enjoy the game AND improve your ability to command and control the small white ball?

We think there's something in golf that's beyond a trophy, beyond a victory, beyond a scorecard or handicap. We think there's a sense of personal achievement as your golf swing and golf game takes another step forward.

## Did you take a step forward?

Was 2019 a good year for you? Did you get better? What skills did you become more accomplished at? Did that improve your enjoyment?
