Gentlemen, it's time

**For the 45th Royal and Ancient
Will it be your name engraved on the trophy?**

The 45th Royal & Ancient Tournament is scheduled to begin tomorrow Friday, June 14th with 89 teams competing over two days of competition for the right to have their names engraved on the Frederick F. Simplify your short game

Three swings you can replicate

Do you lack confidence controlling distance with your pitch shots? Many, even most, of our golfers have one swing length for all pitch shots. They control their distance by accelerating or decelerating into the ball. That's a tough task and just adds to the challenge of the shot. It's very difficult to be precise.

Control distance with the length of your back-swing and follow-through. Work with three swing lengths using the clock face theory 9-3,11-1 and full swing. It will help you hit it closer more often through greater distance control.

Wedge	Swing length	Yardage
60°	9 - 3	23yrd
60°	11 - 1	64yrd
60°	Full	92yrd
55°	9 - 3	32yrd
55°	11 - 1	98yrd
55°	Full	108yrd
50°	9 - 3	40yrd
50°	11 - 1	110yrd
50°	Full	122yrd
PW	9 - 3	43yrd
PW	11 - 1	118yrd
PW	Full	130yrd

Now you should create a wedge chart. An accurate recording of the distance each wedge travels depending on the length of your swing.

This will help you make better decisions on the course. This will help you hit your distance target more often.

Fill the gaps

Integrating a 9-3 and 11-1 swing into your wedge game is critical to ensure you are never between clubs again. You will be shocked by the consistency and confidence you gain. It only takes one lesson.
