Fitting for approach shot magic

Delivering a

BETTER APPROACH

When we fit you for new irons, we can add "distance" which means a shorter club. And using a club with a shorter shaft on approach shots leads to more accuracy.

Many club makers have identified 37 as an important point in shaft length.

Above that length and most golfers' consistency of contact starts to deteriorate rapidly. So allowing you to hit a 37" #7 iron rather than a 'longer' #6 iron is a big deal.

THE CLUBFACE – METALWOOD OR IRON –

has been part of a materials and design revolution. New materials allow them to be thinner and faster. New internal design is supporting the next generation of irons to allow even more speed across more of the face.

Now improve your approach

Book an assessment with us now. Let us look at your swing and technique; your irons and how the technology helps you. Let us improve the number of magical moments you have on the course.

Does better golf

MATTER? 🤪

Last we asked you to reflect on what gave you the most joy and fulfillment over the last golf season. Was it the social and community experiences, or your victories and bragging moments, or your playing performance and improvements made?

It's a fact that MOST golfers are NOT in the game for victories and trophies. They're nice, but they're not the reason "why" for most golfers.

And very few of us make a living out of the game or our performance.

Q&A

HOW MANY OF YOU SEE
YOUR GAME THROUGH 2019
AS PART OF A 'JOURNEY'?

How many of you settled for your handicap vs. how many looked at 2019 as an opportunity to both enjoy the game AND improve your ability to command and control the small white ball?

We think there's something in golf that's beyond a trophy, beyond a victory, beyond a scorecard or handicap. We think there's a sense of personal achievement as your golf swing and golf game takes another step forward.

Did you take a step forward?

Was 2019 a good year for you? Did you get better? What skills did you become more accomplished at? Did that improve your enjoyment?
