Toptracer

Please note Toptracer will be closed
from 10am - 4pm on May 4th and 5th.

Fitting Days

May 4th - 5th
From 10:00am - 4:00pm

2019 Golf Equipment is all about speed and getting you further
down the fairways.

You don't want to miss out!

The poster features a green background with a large white tent on the right side. On the left, there is a dark green vertical banner with white and yellow text. The top of the banner has a circular logo for 'THE GOLF MART' with a golf ball in the center. Below this, the text reads 'SATURDAY & SUNDAY MAY 4 & 5 10AM-4PM'. A crossed golf club icon is positioned below the dates. Further down, it says 'EXCLUSIVE CLUB SAVINGS & RAFFLES' in yellow and white. At the bottom of the banner is the 'Del Mar GOLF CENTER' logo. To the right of the banner, the text '@ DEL MAR GOLF CENTER 15555 JIMMY DURANTE BLVD.' is written in yellow. Below this, the words 'OUTDOOR FITTING DAYS' are prominently displayed in large, bold, yellow letters. The background of the right side shows a golf course with trees and a person walking.

Take the first step

Which is more important to you right now: going further and straighter down the fairway; adding consistency to your approach shots; or becoming a wizard around the green? Spend a moment thinking about which would

add the most enjoyment to your game.

Made a decision? Now take the most important step. Make a commitment to that improvement and let us help you. [Contact us.](#)

Simplify your short game

A wedge chart helps

You want to hit closer wedge shots more often with greater ease. If you can control your distance, you create more opportunities for birdies and par saves. Let's help you achieve this by simplifying your short game with the use of a wedge chart.

Wedge	Swing length	Yardage
60°	9 - 3	23yrd
60°	11 - 1	64yrd
60°	Full	92yrd
55°	9 - 3	32yrd
55°	11 - 1	98yrd
55°	Full	108yrd
50°	9 - 3	40yrd
50°	11 - 1	110yrd
50°	Full	122yrd
PW	9 - 3	43yrd
PW	11 - 1	118yrd
PW	Full	130yrd

A 'wedge chart' is an accurate recording of the distance each wedge travels depending on the length of your swing. Wedge charts are used by the majority of Tour Pros, yet no one really encourages amateur or club golfers to use them.

Making your wedge game easier

Understanding the importance of precision on approach shots using a wedge chart is your first lesson to a better short game and becoming a wedge guru. You may think you are not good enough for a wedge chart, but they really work for any level of golfer.

Ten shots better

Here's where

If you're in the 15-and-up handicap range, there's a strong likelihood you could improve and be 10 shots better. If you don't believe us, monitor your next round for shots lost in the following areas:

1 Consistency and distance control

From 100 yards in, too many golfers still take 4 shots. A lack of control of distance, wrong club choices (or lack of choices), and inconsistency as they attempt to use swing speed to control how far they hit the ball, mean it's a green missed.

2 Fat and thin misery

One of the most common golf shots golfers are left with as a final approach to the green, is the short-pitch shot (15 – 40 yards). Most don't understand the technique. Most don't make good contact. Most can't control landing spot and roll-out. Most know it's 3 from here (and possibly worse).

3 The up-and-down hope

It should be 2, or even 1, from here at least 50% of the time. You should be able to play this shot with confidence every time.

4 The sand horror

How many of you have no real confidence in the greenside sand? How many of you know it's at least 3 shots from here, even 4 sometimes, rather than the occasional 2?

The ten-shot assessment

Book a session with us and let's evaluate your technique and your equipment. Let's identify how many shots we can improve your game by.
