Your children can have it all

If you're a parent and you're looking forward to another school holiday and want to give your child or children something special, introduce them to the game of golf. Fun and enjoyment. Physical literacy, balance, and coordination. Challenges and accomplishments. Friendships and social experiences. Health and a life away from the screen. They can have it all.

Genetic engineering

Exploiting your DNA

You are what you are (swing speed), and you have what you have (driver), but when it comes to your launch DNA, we're the genetic experts you want to consult.

What if we didn't have to change your swing speed or your driver to add 10, 20, and even more yards to your tee shot?

By finding ways, with your current swing speed and driver, to influence your launch angle and spin rate, we can make a dramatic difference to your performance off the tee. For each of you, we can find a tee height, ball position at address, and angle of attack on the ball that can fundamentally change your launch DNA.

Challenge us, challenge yourself

Come and spend 30 minutes with us and let's see how we can modify your launch DNA to deliver performance you didn't dream you were capable of.

Start the journey

BOOK 
**YOUR**
ASSESSMENT 

This is the greatest game on the planet. Every shot that feels right is a beautiful experience. Let's create more of them, and the game gets even better.

Step one

First we want to listen to your thoughts and observe your swing. We need to understand your constraints and opportunities.

Step two

Then we want to understand how improvement can change your experience and what would be most important to you. What is your real motivator?

Step three

Finally we agree on your personal plan for improvement. What can you achieve?
How to get there as quickly as possible?
It's your journey.

Book your assessment

How much better could you be?

How much more enjoyment could you have?
