Greetings from Paul and Steve

Welcome to our latest newsletter.

Bluetree is not just conferences, meetings, café and golfing. Companies find it relaxing to hold their retreats and team buildings at our venue for their organizational development. It's the middle of the year and that time when companies want to recharge and improve their ability to think rationally and strategically.

(Independence Electoral Commission) IEC STAFF TEAMBUILDING

We will host your next event

This week we thank the following for choosing Bluetree World of Golf as their conference venue. With so many places out there to choose from we are honoured to have them choose us repeatedly. The last two weeks we had the pleasure of hosting: **Junior Medics, DTCB, Borakanelo Crime Prevention, Liberty Life, HRDC, Botswana Life, National Development Bank, BANC ABC, Alexander Forbes, BOFINET, Skill builders Botswana, IEC, BIFM, DeBeers, ICL, Office of the Accountant General, FNB, Stanbic and PUMA.**

Thank you always for your loyalty and support!

Our conference rooms come fully equipped and we offer full day and tailor made packages to suit your needs, our banqueting team can set up our rooms according to your preferences. Speak to us for a quote.

Spin: friend or foe?

This is a bigger deal than many think

A colleague of ours recently picked five golfers at random in his club. Three men and two women of differing ages. He spent 20 minutes with each one and their driver (along with alternative configurations).

Changing the spin rate with the same swing speed has a huge impact on the distance the ball travels. Too much backspin for the ball speed and the ball will have too much lift and balloon. Too little spin and the ball doesn't have enough lift and dies quickly. (Read The Magnus effect and Bernoulli's principle if you want more physics).

The laws of physics (proven with the data from hundreds of thousands of golf swings) means that those with slower swing speeds generally benefit from a higher launch angle and more spin, than someone with more aggressive swing speeds.

It's time to do something

What is happening to our children?

Right now, we have a younger generation who are expected to LOSE 5 years of expected life because of childhood obesity, poor nutrition and activity, and the rise of type-2 diabetes and coronary disease. Golf can help reverse this trend.

We need children to become more active. Of course, they need to participate in more than one activity, but golf should be one of the activities. It has everything for a child.

Start your child now

With young children we're not thinking about creating Tour superstars, we're trying to introduce them to a past-time that will offer them the chance to live an active and social lifestyle that will make them healthier for their whole life. It's time to do something.
