Summer days drifting away...

But summer camps building long-term memories

And giving your children a journey to enjoy for life.

The first Rob Noel Golf Academy PGA Junior Camp was held

This beginner camp was a great experience for all. Students learned basic
golf fundamentals, practiced a variety of strokes, participated in a
tournament at the end of camp, and played some fun games
throughout the week.

Thank you to everyone who attended, we all had fun!

Our next camp will be held **July 9-12**, so don't miss out - [register now!](#)

Testimonial Tuesday

"Managed to get away for a lesson with Rob. Sometimes you have to swallow some humble pie and get a lesson. He definitely had me pegged throughout the bag. He is my swing guru from here on out." ~ Micky

Great job done by all!

Could you save 5 shots per round?

Setup and practice

That's right. Get into a better setup (with equipment that allows it). Add more focus to the face angle of your putter at address and at impact; and you'll sink more putts in the 6 to 12-foot range.

This is a bottom line investment. That's right. Your improvement drops immediately to your scorecard. So benchmark your current performance by taking 10x10 foot putts on a perfectly flat lie.

Then consider at least two of three investments.

1. A putter that fits you, allowing you to get comfortably into the perfect setup, with assistance to make sure your face angle is square to the target line.
2. An assessment and refresher to help make sure that, along with setup and posture, your grip and stroke allow the face to return square to target at impact.
3. Practice with aids to help make sure your face angle is as square as possible at address and at impact.

Get a check-up

Improving your ability to square the putter face at impact will likely take up to 5 shots off your scorecard. There are some simple keys to that improvement. Setup and putter are part of that equation. So come and see us.
