Testimonial Tuesday

*"My 8-year-old daughter **Allie** picked up a golf club for the first time last year. We signed her up for lessons with **Coach Nic** in September and it was one of the best decisions we have made. Allie absolutely loves golf, Coach Nic and all the friends and experiences she has had at The Rob Noel Golf Academy.*

*Allie has matured and really become more comfortable with herself around new people and new situations. Those are incredible life lessons that she will take away from this experience. I would like to also thank all of the parents that are so involved and welcoming at the tournaments. That has also been an enjoyable and important part of our whole family experience! Coach Nic is incredible and we will refer any family to this school that is looking for a supportive, fun, team-oriented introduction to golf." ~ **Chris England***

At RNGA we have all the tools necessary to start you on your way to a lifelong game of fun and enjoyment.

Revealing the lie

The key to accuracy is flawed?

We suspect that you all realize that the lie angle on your irons is of paramount importance to your ability to hit solid and accurate approach shots.

You may even have read the research that reveals that for every 1° your lie angle is too flat or upright, you'll be 10 feet wide of the target with a perfectly hit #5 iron. So you'd appreciate why we're alarmed by some research we did ourselves. The standard lie angle for different brands is different!

Brand 1 #7 iron  Lie angle 62.5°	Brand 2 #7 iron  Lie angle 63°	Brand 3 #7 iron  Lie angle 62°
--	--	--

That's right, the first three models we checked (all game improvement models) from three different brands, all had different standard lie angles! That means you might be standard with one model and 1° upright with another.

Every purchase needs a fitting

No one should buy golf equipment (any golf club) without a fitting. As this research shows, even for the most important component of an iron; the part that controls accuracy; it's critical to get fitted for your swing AND the model being selected. Make it easier to hit better golf shots.

A better life for them

You didn't grow up like this

Does the way children grow up today worry you? How radically different is their childhood and teens to that of just 20 years ago?

Children have to be digitally literate, but they also need to invest in movement and athletic ability, their health and well-being, and their interpersonal skills.

Let us add balance to their lives

Have your child enroll into one of our group sessions to learn to play golf, and we'll have them outdoors, interacting, learning new skills, and having a whole lot of fun they can take out onto the golf course. They won't stop playing computer games, but for a couple of hours each time we'll have them off the phone, out from in front of the screen, engaging in fun activity.
