Testimonial Tuesday

*"Rob and I are hard at it in learning how to use my body again after two total knee replacements. We had a great time Friday and Rob is getting me there. I don't think there is anything about the Golf swing in relation to the body Rob doesn't know. Rob is the best teacher and coach on the game of golf on this planet. Thanks Rob!" ~ **Bobby Mandal***

The gifts we offer you

Your driver is your most powerful club, yet many amateurs are happy just hitting the fairway. When it's set up properly FOR YOU, it gives you the confidence to get as far down the fairway as possible. That's exciting!

SHAFT WEIGHT MATTERS

While shaft flex is talked about often, shaft weight arguably has a bigger impact on your ability to keep your swing on plane. And a swing that is consistently on plane is going to hit nearer the sweet spot more often.

Some golfers may find a heavier shaft easier to keep on plane and swing faster than a lighter shaft, and vice versa, it all depends on your swing.

NOT SO SIMPLE

Finding the right fit is not simply a case of faster swings needing stiff shafts and slower swings needing flexible shafts.

Let us give you the gift of more exciting golf

The right shaft weight increases clubhead speed, ball speed, distance, and accuracy. But we need to find the right one for you.
