

## Ladies Workshop finishes with a blast

The Gentle Creek Ladies Spring Workshop finished up on Wednesday. Despite battling end of school and vacation we had 3 take the Operation 36 Challenge. **Jaymi Kallman** was within an eyelash of passing, **Lauren Sorden** played from 50 yards and shot 32 on 9 holes. Next time Lauren will play from 100 yards trying to break 36. Way to go ladies!

## Genetic engineering

### Exploiting your DNA

You are what you are (swing speed), and you have what you have (driver), but when it comes to your launch DNA, we're the genetic experts you want to consult.

What if we didn't have to change your swing speed or your driver to add 10, 20, and even more yards to your tee shot?

By finding ways, with your current swing speed and driver, to influence your launch angle and spin rate, we can make a dramatic difference to your performance off the tee. For each of you, we can find a tee height, ball position at address, and angle of attack on the ball that can fundamentally change your launch DNA.

### **Challenge us, challenge yourself**

Come and spend 30 minutes with us and let's see how we can modify your launch DNA to deliver performance you didn't dream you were capable of.

# BOOK YOUR ASSESSMENT

This is the greatest game on the planet. Every shot that feels right is a beautiful experience. Let's create more of them, and the game gets even better.

## Step one

First we want to listen to your thoughts and observe your swing. We need to understand your constraints and opportunities.

## Step two

Then we want to understand how improvement can change your experience and what would be most important to you. What is your real motivator?

## Step three

Finally we agree on your personal plan for improvement. What can you achieve?  
How to get there as quickly as possible?  
It's your journey.
