Genius on the greens

The new Odyssey Stroke Lab Putter

To improve the consistency and tempo of your putting stroke Odyssey has designed a putter that makes swinging with a good rhythm more intuitive.

Weight is saved in the shaft by combining lighter graphite with the consistency of steel.

That allows the grip end and the head to be made heavier, meaning the putter swings more naturally like a pendulum.

As well as coming in a variety of the iconic Odyssey head designs with different hosels catering for those with putting strokes that arc and those that are straight back and through, the Stroke Lab Putter comes with the White Hot insert and microhinges for a better feel and better roll.

If you've never had a putter fitting, then you're "hoping" to be a genius on the greens. Let's improve on "hope".
