Fitting for approach shot magic

Now
STOP IT

You've hit a #6 or even #5 iron shot into the green. When it lands, is it landing hot or soft? Are you going to hold the green?

A club fitting is more than just allowing you to hit the ball further and more accurately. We want to find iron technology that will help you hit iron shots that hit the green and stop.

TRAJECTORY

Especially with your mid-irons, we want to be able to launch the ball on a good trajectory. We want you to be able to attack the green, or if you're a better player, the flag.

DESCENT

We all know that backspin helps to stop the ball as it lands. But spin, along with launch angle, is also going to influence the descent angle into the green for better stopping power.

Now improve your approach

Book an assessment with us now. Let us look at your swing and technique, your irons, and how the technology helps you. Let us improve the three dimensions above. Improve these, and it increases the number of magical moments on the course.

Make more magic >

Enjoy the experience

Make next year

A JOURNEY 🤪

We've asked you to think about your golf in 2019. Now we want you to open your mind to what it could be if you embraced a "journey" in 2020.

There are so many reasons to spend more time with the game:

We also want you to think about 2020 as a journey, where you deliberately develop skills that bring a sense of accomplishment while unlocking more moments and more fulfillment out on the golf course.

This isn't about a handicap or a trophy. This is about choosing something where you want to improve. It might be on the green, or within 40-yards, or with your wedges, approach shots, or anything you like. Can you imagine the improvement, and can you imagine how you might feel if you achieved it?

What would inspire you?

What improvement in your ability, would make the most significant difference in how you feel about the game? What improvement would give you the biggest "lift" next year? Why do you want to make that particular improvement? Let's think now and get a stake in the ground for 2020.
