Feel the thrill

Don't leave potential behind

The reason we're able to add so many yards to our golfers' tee shots, is the amount of potential they leave behind even after making great contact. There's a different launch DNA for each golfer that maximizes potential.

What's the
clubhead
SPEED you
generate?

What's the
FLEX on your
driver shaft?

What's your
ANGLE
of attack?

What's the
LOFT on
your driver?

Now it's time to "tune" your performance. Can we change your angle of attack? How do we influence the amount of spin you create? What is the launch angle that works best for you?

Ball speed

Launch angle

Spin rate

We're delivering thrills

Creating the perfect match of ball speed, launch angle, and spin rate maximizes the distance you'll get off the tee. A change of just 1° and 500rpm can unlock 20 yards. How much potential can we unlock for you?

Act now.

The best for you

An improvement changing your game

If you want to go from experiencing an average golf game to one where your walk down the fairway is more enjoyable as you look forward to a green full of opportunity, then, perhaps, just a small change is in order. By learning how to release the clubhead vs. trying to steer the ball can result in:

Certainly extra distance. More than you might imagine. A surprise to everyone you play with.

Definitely straighter tee shots and approach shots. More fairways from the tee. More greens on approach.

More solid, more consistent ball striking. More satisfaction at the end of every round.

Forget winning. Forget trophies. Hitting better golf shots makes the whole world a better, happier place. Golf should be the therapy for life!

Get a better experience

What would cause you to smile more often on the golf course? What would give you cause for celebration? If “greater consistency” of ball striking will help deliver a smile or celebration,
