Reminders

Subs

Dear Members,

We need to know urgently if you are going to renew your membership.

We have to pay levies of around \$70 per member based on a levy audit which has a February 29th cut off. An initial payment of \$100 minimum is required **within the next 10 days** or we will have to resign you as a member. Please contact the office if you have any queries. We thank those members who have paid their subs.

Thank you for your co-operation.

Sprinklers!

With the heat, please be aware the sprinklers will be on an extra cycle around midday to prevent our greens from drying out. They usually will only stay on for about 4-5 minutes and shouldn't be too much of an inconvenience, however this is necessary and we will greatly appreciate your patience.

Course closure

14th February

Please note that the course will be closed this coming Friday, 14th February for the vets tournament. We have a full field coming that day so unfortunately the course will be closed that day.

Unlock extra distance

Increasing your ball speed by just 1mph adds two metres to your driver shot.

- *Short in the HAZARDS*
- **TWO METRES EXTRA** *in the clear*

Two metres could be the difference between landing on the other side of a water hazard, or in it. It could be the difference between the light rough and the heavy rough, or the lip of a fairway bunker and the short, firm grass right next to it.

How many metres can we add in a single fitting?

There are many aspects of your driver setup we can consider adjusting to increase your distance.

We'll want to make sure you've got the right shaft length and weight. Also we'll look at things like your angle of attack and dynamic loft.

No metre untapped

There are thousands of fitting configurations. Let's find your ONE, so you can get every metre you're capable of.
