New irons now?

It's not just

**TECHNOLOGY
THAT HELPS**

One of the challenges too many golfers have is an iron fitted incorrectly. The incorrect lie angle causes the face angle to twist as the toe hits the turf first.

*That means the spin axis of the ball becomes tilted.
The ball goes right.*

Give yourself the best chance to send a golf ball on its way with a horizontal spin axis. You'll have better results.

Could you be getting better?

Don't settle. Golf has so much more to offer each of you. Technology that makes you longer, with a fitting that makes you straighter, means your best golf is ahead of you.

Act on your feelings

We have talked about how craving the joy, satisfaction, and accomplishment from better ball striking on approach shots should motivate an action.

You play 120-160-metre approach shots so often. They have a material impact on your scorecard, but more importantly on your experience.

How much would you like to improve your experience on short and mid-range approach shots?

Is that desire enough to take some action?

YOUR PLAN NEEDS TO DRIVE QUICK RESULTS

Whatever your plan, you need to make sure that it quickly provides results in the form of increased pleasure. Pleasure will help keep you committed.

Pleasure in the journey and result

We're here to make learning fun, as well as deliver the result of a better experience from your golf game.
