# Get ahead of the game

## Iron play can be a lot easier

Modern iron faces have larger hitting zones. So when you don't strike it on-center, your ball speed is still up and your target still within reach.

## Double your advantage

Knowing your irons have you covered for off-center strikes is great, but you double your advantage when your lie angle is correct. It helps you to square the face at impact and make full use of those forgiving iron faces.
