A brand new toy to improve your golf

We had a super special delivery this week that we are excited to share with you all!

It's taken <u>TrackMan</u> three years to develop and we must say, it was worth the wait! The new **TrackMan 4** has a dual-radar system which can track all the necessary data from a 2-metre chip to a 350-metre bomb with pinpoint accuracy. It has been rated as the most precise launch monitor out there and is trusted by countless PGA Professionals.

What does this mean for you? We will be able to identify exactly what is needed to get the most out of your swing, and therefore get you playing better golf and having more fun out on the course.

If you'd like to take this magnificent piece of equipment for a test drive so that we can help you enjoy your time on the fairways a whole lot more, <u>popus a message</u>. We would love to help you achieve your golfing goals.

Improve my golf >

No standards is the standard

One brand's stiff flex is another's regular

Shaft manufacturers set unique flex and balance points for each shaft they design. They also use a variety of materials with varying thicknesses. And the way they measure the flex of their shafts is probably unique as well. It's clear then that buying shafts off-the-shelf is a no-go.

As there is no 'true flex' for golf shafts, what we really need to do when setting you up is to match your shaft with your clubhead and your swing. This means hitting shots with a variety of different shafts (that could all be 'regular' flex) and seeing how it feels and what your ball flight is.

Find YOUR flex >

XXIO knows golf

should be a joy

XXIO design their clubs specifically for the everyday golfer who wants an easier, more joyful playing experience. We can use this technology to transform your game.

Be their cheerleader

When children move into the competitive side of golf, it can be a make-or-break phase of their journey. That's why it's so important that parents remain supportive rather than critical. That's how you keep your child on the developmental pathway, as golfers, and as people.

Process-focused. Outcome-aware.

When success in golf is dependent on the outcome, we risk losing focus of the process. We want junior golfers to be aware of the outcome but not driven by it. If your child has played in a tournament, restrict your feedback to what they did well. Be their support. We, as coaches, will take care of process improvement.
