A slice of heaven on hole 11

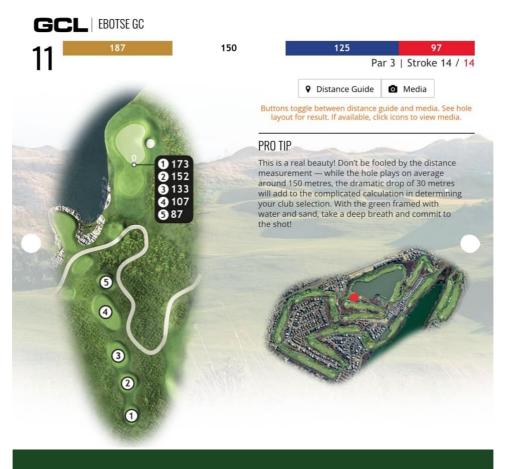

If you love a scenic par 3 then this for you.

Our 11th hole has an average meterage of around 150 with a dramatic drop of 30 metres. Players can deduct anything from 12 to 15 metres for the slope. The great view makes the extra challenge worth it.

How would you take on the 11th hole?

Let's look after the course

Please remember to repair pitch marks when you play. This is for your own benefit, as well as the beneft of other players and most importantly for the health of the grass. A small effort goes a long way. Thank you!

Loft 'n' roll Not to be forgotten

We know the right driver loft increases distance off the tee. We know the right wedge loft makes up and downs easier. But what about putter loft? It's not spoken about enough, but the loft of your putter massively affects your distance control and accuracy on the greens.

Are you delofting your putter?

Most off-the-shelf putters today come with about 3 degrees of loft. That's what we call the "static loft", and it's enough IF you strike the ball square. But if you press forward or pull back in your putting stroke, you're reducing or increasing the "dynamic loft" at impact.

Take on any putt

To get your ball into a smooth, end-over-end roll after impact, we need to make sure your putter loft is working with your stroke to give you the best dynamic loft. That means getting fitted or having your stroke assessed, or ideally, both.

Change someone's life.

Give them the gift of golf.

This isn't a world of avatars, followers, likes, and emoticons. This is golf, a world of personal interactions, tangible experiences, real connections, and a better life. This is something everyone can benefit from.
