Santa says

Online bookings for easier golfing and club enjoyment

Our industry is changing and improving all the time. In golf there are many Apps available to do everything from giving you a distance on the course to checking your health before you play. As property owners on the Estate, you have use of the Glovent APP to assist in communication, logging HOA help desk tasks and for residents, giving access to your home by providing one time pins to your guests and service providers.

In time to come, we hope to offer you a “one-stop” solution that will not only enhance and simplify your estate living experience, but will also interact with your Club experience.

In the interim for online golf bookings, we have now made available the very user-friendly Clubmaster Member Portal app which enables you to view the tee-sheet and allows you to book yourself, your “buddies” (friends you can add to an internal group) and other members for golf. You can also

view your Club spending account and soon, the app will allow you to authorise payment of your food or beverage account as a hands-free option (provided you have a credit balance). For our regular golfing members, this online booking method will replace the current bookings via What'sApp. We therefore request that you familiarise yourself with the new online system from the comfort of your smart phone as soon as possible. Our golf department will phase out any golf reservations via What'sApp groups in early July, but other pertinent info will still be communicated. We now invite you to download and familiarise yourself with the Clubmaster Member Portal app and our online golf booking facility and to please pop in to the Golf Shop for questions and demonstrations.

Go the distance.

What is your smash factor?

Hitting long shots requires a high energy transfer from golfer to club to ball.

Smash factor is a measure of this energy transfer.

Do you know what your smash factor is?

Many golfers are at about 1.3. Getting to 1.35 requires small changes, but adds up to 10 metres to your tee shots.

Golf is good for your child. A game that gives them so much more.

Children today have so many ways NOT to go outside. Whether it's TVs, PCs, tablets or smartphones; a digital world of instant streaming and gaming options is there to keep them indoors. Golf offers your child the fun of gaming with the added benefits of exercise and fresh air in a safe environment.

Develop their ABCs

Golf helps to develop your child's Agility, Balance, Co-ordination and Speed. What movement experts call 'physical literacy'. Golf also has a much lower injury risk than other sports.

Golf offers many more benefits for your child. We've highlighted ten of the best here.
