

The name's Hatton, Tyrell Hatton!

I enjoyed watching the **European Tour** event from Abu Dhabi last week. The winner, **Tyrell Hatton**, blew the field away, including former World #1, Rory McIlroy. Hatton is now the **World #5** ranked player – what an incredible last 18 months he has had!

This week, the Tour is in Dubai for the **Omega Desert Classic**, and I see South African, **Justin Harding**, is and an early leader in round one. So, make sure to watch.

Conquer the course with more confidence in 2021

The difference between some of these top players, is simply confidence.

I always liked the idea that ***confidence came from evidence***. This evidence starts with ball striking on the Range and Practice Tee, and the moves over to your performance on the course. If you need a little extra help try finding a copy of the this book.

A little extra reading!

On the book front, I still have some copies of ***Out of the Rough, Papwa a Player Denied***, by Selvan Naidoo. It can be bought at the Ball Kiosk at the Range, for only **R300**.

Learning online

For any new golfers, who might not be able to get to the Range for one-on-one coaching or who would like an online reference to follow, ***The Beginning Program*** by Croker Golf goes hand-in-hand with my teaching philosophy.

Martin

Driving Range Operating Hours

MOUNT EDGECOMBE COUNTRY CLUB ESTATE

DRIVING RANGE

Operating hours of the Driving Range

**As of 1st February 2021,
our new operating hours will be
as follows:**

***Monday* : 09h00 to 19h00
(last bucket 18h30)**

***Tuesday to Friday* : 07h00 to 19h00
(last bucket 18h30)**

***Saturday to Sunday* : 07h00 to 18h00
(last bucket 17h30)**

This time it's the same head

Previously we've talked about 4 different driver models with identical lofts, creating very different launch angles (and spin rates) because their CoG locations in the head were different.

We've also talked about finding the right launch and spin for your tee shots, making 20 and more metres difference to your tee shots.

Well, the same driver head – and therefore identical CoG location - with two different shafts can create a significantly different launch angle and spin rate.

“We want you to get the best results possible off the tee. Distance is one of the outcomes we’re after. That requires us finding the shaft and head to create the right launch and spin rate”.

Get your DNA measured

There’s a driver DNA – ball speed, launch angle, & spin rate. We need to match those when fitting you for a driver. How close is your match? Do you have 20 metres or more of extra performance in the right DNA? Come and see us. Let’s unlock your potential to thrill.

Contact us >

A game for all

Competition doesn't matter

Particularly when you're starting out in golf, the most important thing is that you enjoy yourself.

Bend some rules

Certain rules are unavoidable, like teeing off from the tee box and repairing your divots. But if you don't want to play from the rough or bunker or over water, drop a ball in the fairway. If you want to tee it up on the fairway, do it.

Do anything to make your experience more enjoyable.

Simplify things

Take a sleeve of golf balls, a short iron, and your putter and play 18 holes of approach shots. Use the walk between the tee box and approach to simply enjoy being outdoors. Better yet, bring a friend along.
