Maui Jim and Oakley Sunglasses

This year we are offering the two best sunglass options in golf.

Tee off in a pair of golf sunglasses by Maui Jim®, and see the next eighteen holes with new eyes. Polarized golf sunglasses are made using patented PolarizedPlus2® lenses that virtually eliminate glare and enhance depth perception, while blocking 100% of the sun's harmful rays.

Oakley Golf Prizm lens does an amazing job blocking the rays from the sun, but also improves contrast for better color separation to help with reading greens.

Take advantage of tech
Tip the scales in your favor

Club designers have made it easier for you to launch the ball high and long by combining lightweight materials in the face and back with heavier ones in the sole. But there's another weight that also matters to ball flight.

Iron shaft weight affects the total weight of the club, which in turn affects your swing tempo, ball striking consistency, and therefore your launch.

Shaft weights vary from 65 to 130 grams. Do you know which is best for you?
